Summary

Web developer with 5+ years of experience in responsive, user-focused applications. Skilled in React, TypeScript, and modern front-end tools. Experienced in data analysis for business operations and interested in machine learning and AI techniques to enhance software and data-driven solutions

Skills

Problem-solving, Team leadership, Agile methodologies, Active listening, Adaptability, Decision-making, TypeScript, React, GraphQL, React Query, Tailwind CSS, Material UI, JavaScript, Python, PL/SQL, Git, REST APIs

Experience

CENTERS SENIOR DEVELOPER, NTT DATA – Mexico City, Mexico March 2023 – April 2025

CENTERS LEADER DEVELOPER, NTT DATA – Mexico City, Mexico April 2025 – Present

- Led a team of data analysts and coordinators, mentoring and aligning their work with cross-functional teams, resulting in timely delivery of data insights and process improvements aligned with international standards and client needs.
- Spearheaded automation initiatives by developing analytical tools and dashboards, increasing order processing speed by 80% and boosting operational efficiency.
- Coordinated collaboration between global planning, logistics, and analytics teams, streamlining communication and data flow, which optimized production processes and consistently met customer expectations.

SOFTWARE DEVELOPMENT MANAGER, Dillo – Sydney, Australia Aug 2024 – Present

- Led software development teams to design and deliver scalable, high-quality software solutions, ensuring system performance and maintainability.
- Managed the entire software development lifecycle by establishing clear processes and milestones, achieving timely and efficient project delivery under tight deadlines.
- Fostered a collaborative, growth-oriented environment that enhanced technical excellence, improved team performance, and increased knowledge sharing.

FRONTEND WEB DEVELOPER, Bedu – Mexico City, Mexico Dic 2021 – Jun 2022

- Faced with slow website load times, developed React sites with TailwindCSS, collaborating with UX/UI teams, resulting in a 50% performance improvement.
- Needed scalable front-end solutions, built reusable code and libraries with Next.js, TypeScript, and GraphQL, accelerating development for future projects.
- To ensure high code quality, participated in product releases and conducted code reviews with senior developers, reducing bugs in production.

FRONT-END DEVELOPER, Logiety – Veracruz, Mexico Feb 2021 – Dic 2021

- Implemented UX/UI best practices to improve product usability and engagement.
- Adopted and applied Scrum methodology in cross-functional product teams.
- Developed landing pages and interactive interfaces using React.
- Optimized application performance for speed and scalability.

Education

New Brunswick Community College – Software Development Sep 2026 – Jun 2028

Veracruz Technological Institute – BS in Systems Engineering Jun 2021

[Microsoft Certified: Azure Fundamentals](#) Apr 2025
